Please note:

- Ensure the Mac OS is up to date
- The app is unsigned. When opening for the first time, you will need to:
    1. Option + click/Right click and select "open from the context menu"
    2. Proceed through warning message.
    3. In the future, you will be able to open with a simple double click.
- The preview function currently does not work and will crash the application upon connection.
